

2023 BECID Report: Insights into Baltic Information Resilience

BECID

January 17, 2024 ·

The BECID 2023 report is a comprehensive overview of the initiatives and achievements of the Baltic Engagement Centre for Combating Information Disorders. It covers diverse areas such as project management, fact-checking activities across the Baltic states, research and analysis, media literacy initiatives, and student research highlights. Some key aspects include innovative approaches to digital media literacy, establishing educational programs and workshops, and collaborative efforts with various national authorities and organizations. The report provides valuable insights into the fight against information disorders in Estonia, Latvia, and Lithuania, highlighting significant progress and future strategies.
